

LIFESTYLE & RESIDENTIAL SHEDS

■ QUALITY STEEL SHEDS, DESIGNED FOR YOU

0800 870 078 | www.kiwispan.co.nz

WHY CHOOSE OUR SHEDS?

When it comes to quality lifestyle & residential sheds, KiwiSpan set the standard. Our attention to detail, premium product, and experienced team have made us leaders in the NZ steel shed industry.

In fact, we've been creating quality sheds that Kiwis love for over 15 years. We have a nationwide network of experienced licensees, all fully owned and operated here in NZ. With KiwiSpan teams spanning from the Far North to the South, we've built sheds across the entire country. For a shed that will last, talk to us. We're the Kiwi choice!

OUR STEEL IS MADE TOUGH

The steel is the most important part of your shed – it should be designed tough. We use up to 3.0mm-gauge steel for the structural elements in our sheds, and a minimum 0.4mm-gauge cladding with extra wide and thicker 0.55mm-gauge flashings, which is heavier than most competitors. Why? It gives you peace of mind knowing your shed materials have been chosen to withstand NZ's harsh conditions. Do not settle for anything less.

NO COMPROMISE ON QUALITY FIXINGS AND FASTENINGS

Unlike others, we use grunty bolts alongside heavy gauge tek screws to keep your shed together. Our NZ-designed and engineered brackets utilise these industrial bolts, offering a stronger connection. As a result, your building will have higher-quality fastenings and a much tidier look.

MAXIMUM USE OF SPACE

We proudly deliver more usable space inside your shed. We can build a true clear span of up to 18m without obtrusive knee or apex braces (and up to an impressive 30m using this bracing). So you can enjoy wider clear spans, top-to-bottom storage space, and extra room for manoeuvring vehicles. More bang for your buck.

DESIGN YOUR SHED YOUR WAY

Design and visualise your dream space with our online 3D Designer tool. You can easily create a virtual model of the shed you want, take walls out, add lean-tos or roller doors, and so much more.

STORAGE SHEDS

Let us create a safe space for your storage needs. Our range of modern storage sheds are built to last, providing you with a secure and weather-resistant storage place for all your belongings. Best of all, our storage sheds can be customised to different sizes, lengths, heights, colour and more. You dream it, we'll build it.

AMERICAN BARNs

The perfect solution for those who need a large, versatile space. Our American Barns are made from high-quality steel and can be customized to fit your specific needs, including the number and size of doors, windows, and more. With a wide range of color options available, you can also choose a barn that perfectly complements your property!

GARAGES

For a sturdy garage that will add value to your home and protect your investments, look no further. We combine cutting-edge technology with the best NZ fabricated steel to create stylish garages that last. Our range of single, double, triple-bay options and more, provides ample choices for your workshop or car parking requirements. Choose KiwiSpan for unparalleled quality and style.

THE KIWISPAN WAY

We're committed to delivering a stress-free experience for you. To help, we offer a variety of services to take the hassle out of your building process.

Let KiwiSpan handle the big things - so you can focus on the fun stuff!

OUR DURABILITY STATEMENT

When it comes to quality sheds, KiwiSpan set the standard. Our premium products are made with high-quality steel, built to the highest standard and designed to withstand the harshest New Zealand conditions.

KiwiSpan provides 50-years durability for its structural frame and associated bracketry provided the structural frame and bracketry are maintained in accordance with our durability and maintenance guide.

Our 50-year durability does not extend to any other building components such as roofing, cladding, garage doors, joinery, fixings and fixtures which come with their own manufacturer's warranties.

MAINTAINING YOUR SHED

Products in the construction industry require regular maintenance to ensure the lifespan of the product meets performance and durability standards. On completion of your build, your local KiwiSpan licensee will supply a maintenance plan that is specific to your shed, and it is important you follow it.

COME IN FOR A QUOTE

Chat to your local licensee about your project and they'll provide a free quote based on your exact needs and specifications.

GET BUILDING CONSENT

Your local KiwiSpan team will guide you through this process, to help make it as hassle-free as possible.

BEGIN THE BUILDING PROCESS

Let us bring your project to life. While our buildings are available to buy as a kitset, our trusted licensees can also construct it for you.

ENJOY YOUR NEW SHED

Before we hand the keys over, we will arrange a final inspection to make sure your shed meets the KiwiSpan standard.
